1th January 2024

Dear Cattle Exhibitors,

Please find attached entry forms and programs for the Cobargo 2023 show, which is on the from 9th - 11th February 2024.

Beef Cattle Friday 9th starting at 10 am (entries must be received by 5pm Wed 7th Feb)
Dairy Cattle Saturday 10th starting at 8:30 am (entries must be received by 5pm Wed 7th Feb)

Also attached is the National Cattle Health Statement which is now the Herd Health Status and Declaration Form for Shows and Sales for beef and dairy cattle.

Please remember **that it is mandatory to use NVD (National Vendor Dec) that *must* accompany all livestock transported.** Producers generally have their own books of NVD's (available through MLA) or they can obtain a TSS at South East Local Land Services Office Bega, : 02 64917821
www.lls.nsw.gov.au/southeast

Also Dairy Entries must be accompanied by Dairy BJD Assurance Score Declaration Form. Beef Cattle producers note that for Section 2, NSW is zoned a Beef Protected Area. There is no need for anyone to complete Sections 4 or 7. (We are EBL and Cattle Tick free)

Please remember all entries in Cattle section - Beef & Dairy close Wednesday 7th February 2024.

Entries can be emailed to: secretarycobargoshow@yahoo.com.au

Also, just a reminder that when LEADING show cattle there **IS a DRESS CODE.**

Check visit our web page www.cobargoshow.org.au for more information of schedules and events that are on at our show.

Yours sincerely

Naomi Rolfe
Secretary, Cobargo AP&H Society

CONDITIONS

- Entries close Wednesday 7 February 2024. Entries: \$2.00 per head
- All calves to be over 6 months.
- All individual first prize winners are eligible for the Championship. Reserve Champion to include the runner-up to the Champion in its class. All cattle will be ribboned immediately they are judged. All ages to be on 1st January.
- All stock to be registered.
- Dairy Entries must have a National Cattle Health Declaration, BVDV Status, PIC to be included; all show cattle must have NLIS tags, NVD.

STEWARDS: Julie Salway, Dylan Salway, Philip Pittolo, Chris Apps
Judging to start Saturday at 8:30am.

NATIONAL CATTLE HEALTH DECLARATION EXPLANATORY NOTES

OVERVIEW

The Cattle Health Declaration is a legal document. Please complete accurately before signing.

Cattle Health Declarations are a way for producers to provide information about the health status of the cattle they are selling. Buyers should ask vendors for a Declaration and use the information provided to determine the health risks associated with the animals on offer.

Some states/territories require testing or certification additional to that outlined in this document e.g. Johne's disease (JD) in WA and for Enzootic Bovine Leucosis (EBL) in Tasmania. Please check the entry requirements for any interstate movements at:

www.animalhealthaustralia.com.au/what-we-do/endemic-disease/livestock-movements

The original of this form is to be attached to the National Vendor Declaration (NVD) form accompanying the cattle, if applicable. A duplicate remains with the vendor; it is recommended the vendor retains a copy of this declaration for seven (7) years.

QUESTIONS 3 & 4: BOVINE VIRAL DIARRHOEA VIRUS (PESTIVIRUS) TESTING

Persistently infected animals can be detected by conducting a pestivirus antigen test. This test only needs to be conducted once in an animal's life. Cattle that test positive in most cases are persistently infected animals. Pestivirus antibody testing may be done to check the pestivirus status of the herd. Dairy cattle may be tested through bulk milk testing. Contact your veterinarian for assistance. Producers who don't know the answer to these questions should tick the 'N' box.

QUESTION 5: JOHNE'S DISEASE TESTING

Note: JD is a notifiable disease, so it is important to answer these questions.

Check test – testing of 50 adult animals in the herd (or all eligible animals in a herd if less than 50 adult animals) biased to increase the probability of detecting infection, tested by (pooled) faecal culture or (pooled) HT-J faecal PCR. An ELISA test is available but is not recommended and also not accepted for entry of cattle to WA.

Sample test – screening of the adult herd or a large representative sample of the adult herd by an approved test (pooled) faecal culture or (pooled) HT-J faecal PCR. See note above for ELISA test.

Herd Environmental Culture (HEC) Check Test (for dairy cattle) – a test of a representative sample of faecal material from the yard (see JD in *Cattle Definitions & Guidelines* for details). Details are available at www.animalhealthaustralia.com.au/jd-cattle-tools.

QUESTIONS 6 & 7: JOHNE'S DISEASE

Occurrence of JD refers to clinical disease in the herd or on the property(s). Clinical disease is an infected animal with chronic diarrhoea and weight-loss that does not respond to treatment.

The **Johne's Beef Assurance Score** (J-BAS) is a voluntary tool developed for JD risk profiling. Details are available at www.animalhealthaustralia.com.au/jd-cattle-tools. The J-BAS is an initial guide and purchasers should ask for more information about JD in the origin herd (see the JD in Cattle Biosecurity Checklist on the 'JD in cattle' webpage). The *National Farm Biosecurity Reference Manual - Grazing Livestock Production* provides a template to use for the property biosecurity plan. All plans should include the JD in Cattle Biosecurity Plan Checklist.

The **Johne's Disease Dairy Score** (JDDS) is a voluntary tool for JD risk profiling in dairy cattle. Information is available at www.dairyaustralia.com.au/bjd

Grazing of non-bovine species – Buyers of cattle from this consignment may consider the grazing of other JD-susceptible species (sheep, goats, alpacas) on the source property as important to their risk-management decisions. These buyers are entitled to seek information on how you have managed disease risks for all your livestock.

TREATMENTS & VACCINATIONS

Provide details on any cattle treatments in the last six (6) months and vaccinations within the last twelve (12) months.

Some manufacturers include more than one of the categories listed in the same vaccine, known as a combination vaccine. If you use a combination vaccine, each agent(s), as appropriate, should be detailed.

For vaccinations to be current, you must have followed the manufacturer's recommendation for vaccination. Typically, young animals or first time vaccinated animals need two (2) doses, followed by annual boosters. As variations to this general rule do occur (e.g. Silirum is given once only), you must use the manufacturer's recommendations.

At the date the declaration is made and as a result of the vaccination(s) given, the animals are considered protected from the diseases marked as treated.

DECLARATION

This section must only be completed by the owner or person responsible for the husbandry of the cattle in the consignment.

Dairy BJD Assurance Score Declaration Form

Explanatory notes

PART A – HERD SCORE

Johne's disease Market Assurance Program (MAP)

MN1 to MN3 are Monitored Negative statuses in the Australian Johne's Disease Market Assurance Program for Cattle (CattleMAP). The herd's approved veterinarian issues a herd status certificate that is valid for 12 months.

Herd Tested Negative

Check tested, Tested 4 Year Old and Tested to MAP Standard are statuses allocated to eligible herds that have had a negative test by an approved veterinarian. A Check Test can only be conducted on an established herd that is not infected or suspect for BJD. A herd that has introduced cattle with a Base Score (Part A) of 1-6 is ineligible for a check tested status. In eligible dairy herds a Check test can be conducted by sampling the faeces from the concrete yard/standing area prior to wash down or by sampling (blood or faeces) 50 adult cattle (2 years of age and older) in the herd that are most likely to be infected. A Check test status can be maintained by testing every 12 months. Tested 4 Year Old and Tested to MAP Standard are tests of all or up to 300 of the cattle over 4 years old and 2 years old respectively in the previous 24 months, and these statuses can be maintained by a Check Test every 24 months. The date of test is the date samples are collected.

Approved BJD control programs

An approved BJD control program is approved by the State or Territory animal health authority for an infected herd. The authority allocates the herd status to reflect the stage of the herd's progress.

To attain and retain a status of High Prevalence, Moderate Prevalence or Low Prevalence, a herd would also have to implement a disease program comprising at least:

- Individual animal identification
- 3-step calf rearing plan
- immediate culling of clinical cases
- herd retest at a maximum interval of 2 years to maintain or progress status
- culling priority for reactors and other high risk animals at the end of lactation
- introductions of same or higher assurance score

High Prevalence herds have more than 4% (4 years and older) test positive by ELISA or have not been tested and Moderate Prevalence herds have equal to or less than 4% test positive by ELISA. A Low Prevalence herd has 2% or less ELISA positives among cattle that are 4 years and older (or 1.5% or less in cattle 2 years and older).

Restricted 1 and Restricted 2 are statuses for infected herds that have had one and two consecutive negative herd tests respectively in an official control program, as per the Standard Definitions Rules and Guidelines for BJD

Approved calf rearing programs

Young animals are most susceptible to becoming infected with BJD. The risk of calves becoming infected can be lowered by reducing their exposure to infected cattle and contaminated environments on the farm.

The JD Calf Accreditation Program (JDCAP) is a voluntary comprehensive audited program that has been implemented on some dairy farms in Victoria and is a compulsory part of participation in the Victorian Test and Control Program from 2003 onwards.

The Three Step Calf Plan is a voluntary calf rearing program that can be included in dairy factory audited on-farm QA programs.

The following three steps are management practices that minimise the risk of spread of BJD infection in cattle under 12 months:

- Calves should be taken off the cow within 12 hours of birth.
- Management of the calf rearing area should ensure that no effluent from animals of susceptible species comes into contact with the calf.
- Calves up to 12 months should not be reared on pastures that have had adult stock that are known to carry BJD on them during the last 12 months.

Infected and suspect herd

The herd is classified by the animal health authority as infected or suspect and has not been tested to achieve a status under sections above.

Non-assessed herds

Herds that are not known or suspected to be infected, and have not qualified for one of the above statuses by testing, are classified as Non-Assessed. The risk that they are infected may be determined by their location. If you are unsure of your Zone/Area, please contact your local state government animal health office.

Dairy herds in the Beef Protected Area or Management Area that have not been tested or implemented an auditable hygienic calf rearing program have a Herd Base Score of 0.

PART B – CALF CREDITS

Approved calf rearing programs

Only calves that have been reared under JDCAP or the Three Step Calf Plan are eligible for calf credits. Individual calves that are classified in an approved BJD control program as having a high risk of being infected are not eligible for calf credits.

PART C – TOTAL SCORE FOR CATTLE

Scores for individual animals are calculated by adding the Herd Base Score from Part A and any eligible calf credits from Part B. Calves reared under JDCAP can attain a maximum of Score 7 which is maintained for life eg. base Score 4+3 JDCAP credit points. The animals must have been reared under the JDCAP program for 12 months-although this may not necessarily have been continuous on the same property.

PART D – FOR CATTLE PURCHASED INTO YOUR HERD AS ADULTS AND BEING RESOLD

If you are selling cattle originally purchased into your herd as adults and you hold a Declaration Form relating to the purchase, these cattle retain their original Dairy Score unless they are from CattleMAP herds entering non-MAP herds, when their maximum Dairy Score is 7

Section A - Supplier's statements about risk and duty of care

Agricultural Societies Council of New South Wales Limited and
(Name of Show) (together the Suppliers) advise as set out below.

The handling of animals is a dangerous recreational activity as animals can act in a sudden and unpredictable way, especially when frightened or hurt.

Participation (including passive participation) in animal handling and/or physical competitions and/or Events at an agricultural show and/or use of the Suppliers' facilities contain elements of risk, both obvious and inherent.

Physical competitions and activities, Events and use of the Suppliers' facilities are all dangerous recreational activities. This document is a risk warning for the purpose of section 5M of the Civil Liability Act NSW 2002. This risk warning is given by or on behalf of the Suppliers.

This document acts as an exclusion of liability under Part 1A Division 5 of the Civil Liability Act NSW 2002 if the services supplied by the Suppliers are supplied without reasonable care and skill.

Section B - Participant's acknowledgements

By signing this document I acknowledge that:

1. Participation in the Event and/or use of the Suppliers' facilities is a recreational service for the purposes of section 139A of the Australian Competition and Consumer Act (Cth) 2010 and a recreational activity for the purposes of section 5K of the Civil Liability Act (NSW) 2002.
2. I participate in the Event and/or use of the Suppliers' facilities at my own risk.
3. Participation in the Event and/or use of the Suppliers' facilities is a hazardous activity and involves a significant risk of physical harm and may result in injury, loss, damage or death to me and others.
4. Participation in the Event and/or use of the Suppliers' facilities requires certain skills and experience. I declare that I have sufficient skills and experience to be able to safely and properly participate in the Event and/or use the Suppliers' facilities.
5. Animals can act in sudden and unpredictable ways, especially if frightened or hurt, or if exposed to loud or unfamiliar noises.
6. The Event will be held in close proximity to rides and large groups of people and there may be loud and unfamiliar noises which can frighten animals used in the Event.
7. If the Event is held outdoors, there are risks to me as a result of the weather conditions, including either extreme hot or cold weather, rain or wind.
8. Insects or other animals may cause animals used in the Event to become frightened and act in an unpredictable way.
9. In handling animals, there is a risk of suffering injury including injuries caused by the animals.
10. I am responsible for ensuring that I have and will wear equipment suitable for my safety in my participation of the Event and/or in using the Suppliers' facilities.
11. I am responsible for the condition of any tools and equipment and ensuring that they are appropriate for the Event and/or in using the Suppliers' facilities.

MULTI PURPOSE INDIVIDUAL WAIVER

12. I use the Suppliers' facilities, including for the Event entirely at my own risk, as I find them and with the prior acceptance of the risk of possible danger to me, both obvious and inherent.
13. At the time of participating in the Event and/or in using the Suppliers' facilities, I will not to any degree be under the influence of alcohol or illicit drugs.
14. I will not consume any alcohol or illicit drugs while participating in the Event and/or in using the Suppliers' facilities and agree that such use may result in my being excluded from the Event and/or from using the Suppliers' facilities with no entitlement to any refund of money paid to the Suppliers for entry.
15. I agree to be bound by the rules and guidelines of the Suppliers as varied from time to time.

Section C - Participant's acceptance of risk & no duty of care & waiver of rights

1. I acknowledge and agree that my participation in the Event and any associated activities and/or my use of the Supplier's facilities is dangerous and may have obvious and/or inherent risks as a result of which personal injury (and sometimes death) may occur.
2. I acknowledge that my participation in the Event and any associated activities and/or my use of the Supplier's facilities carry with them a significant risk of physical harm.
3. I accept and assume all risks of personal injury or death in anyway whatsoever arising from my participation in the Event and any associated activities and/or my use of the Supplier's facilities.
4. I waive my individual right to sue the Suppliers for all claims I may have for such personal injury or death against the Suppliers in any way whatsoever arising from or in connection with my participation in the Event and any associated activities and/or my use of the Supplier's facilities.
5. If I suffer personal injury or death while participating in the Event and/or from my use of the Supplier's facilities, I will not hold the Suppliers, their employees or agents legally responsible for any personal injury or death I suffer.
6. I will not sue the Suppliers, their employees or agents for any claims, actions, costs, damages or liability.
7. I release the Suppliers and their employees from legal responsibility for the services I have been provided and/or activity I have participated in, including the Event.

Section D - Signature
